## PRAYER CHANGES THINGS

If you're anything like us you don't want to live a life that is mediocre, sad, frustrated or meaningless. You don't want to be a servant to your circumstances or subject to your limitations. I'm sure you would prefer to live a life of peace, joy, hope and purpose.

**This kind of life can only happen when we enter into a close relationship with God.**

Some people believe in God  
Some live with a sense of God in the back of their mind  
Others do religious or good things for God  
Others love God and serve Him to the best of their ability but long for more in their relationship with Him

**A close relationship with God means to be able to:**

Communicate your whole Heart to Him on an ongoing basis  
Direct your attention from yourself to only Him  
Understand who He really is and let that knowledge define who you are -  
Read His Story, Receive His Son, Jesus  
Pray to the One who loved you before you knew Him  
Loving Him with all your heart and letting Him love you  
As much as we love and communicate with each one of our children and grandchildren, that is only a fraction of the relationship that we want to have with our Maker

**When we praise, worship & communicate with God His presence becomes real to us.**

*Isaiah 17:7* **Then at last the people will look to their Creator and turn their eyes to the Holy One of Israel.**

You'll learn a five-step instruction routine that teaches cooperation and responsibility. You will also learn tools for correction that help kids change their hearts, not just their behaviour. This is a powerful seminar providing moms and dads with practical tools that you'll use every day. It's a biblical model that helps parents move from behaviour modification to a heart-based approach. Tools and strategies will be presented, to work with children ages 2-18. All parents, grandparents, and teachers will benefit from this seminar as you learn to address heart issues in the midst of every day interactions with kids.

**Pastor Bramhill is available to do speaking and week-end conferences. If you are interested, please call 226.422.3015**
